Dear Mr. Olia:

RE: Proposed ESG PY2010 Action Plan Competitive Application Process

In regard to your criteria for rating the PY2010 ESG competitive applications, I ask you to consider the number of clients actually served by the homeless service provider agencies included in the application, as well as to ensure that ESG funds do not become a primary funding source for operation of the service provider. I also ask you to consider conducting site-visits to all potential grantees who have never received ESG funding.

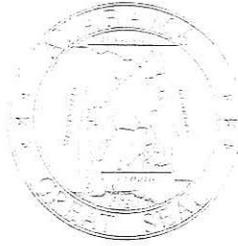

If you have any questions, please call me at 334-353-0288 (D) or 334-227-0783 (E).

Sincerely,

Shonda Gray
